The shenanigans of Dread Pirate Roberts, princess Buttercup, swordsman Inigo Montoya and B.O.B.S. will grace an outdoor screen as *Suzie Q* doughnuts shows comedy/fantasy/adventure film *The Princess Bride* (the most awesome movie of all time; discuss) at sundown, 993 Wellington St. W. Capital Pop-Up Cinema Brings Back Some Outdoor Movie Magic This Summer

As a kid I traveled to other worlds by way of a seat in the family car and a silver screen set against the black sky. Lit only by a few spotlights and a possible eternity of stars, hot butter greasing my fingers, I watched while a summer wind swathed the smell of hotdogs and popcorn through the window. Heroes with names like Luke Skywalker and Indiana Jones. Vengeful vikings in double features and monsters named wild causing teenagers in nearby cars to clutch each other close. As the sun set you could see kids playing tag in a nearby field, hopping over -though mostly in- mud puddles from an afternoon rain. If you had to go to the bathroom you ventured around an auto-vacua sweating at bugs attracted to the chocolate still staining your lips. Friends would be having a football as they waited for the second film to start.
